BACK GROUND OF INVENTION

The specific nature of my invention is applicable in the field of oral hygiene pertaining to teeth.

BRIEF SUMMARY OF THE INVENTION

The general idea of my invention is to attach cylindrical bristles to floss, so that the product created can be used to clean between the teeth.

BRIEF DESCRIPTION OF THE DRAWING

FIGURE (1)

The drawing of my invention is to show how the cylindrical bristles are to be attached to the floss and give the general public the concept of my invented product.

DETAILED DESCRIPTION OF THE INVENTION

The invention is to combine cylindrical bristles to floss. The cylindrical bristles will be applied in such a manner that they are attached to the floss. The product will be cylindrical bristle floss, that can be used in fashion as other flosses to clean in between the teeth for oral hygiene.
